INTRODUCTION AND GENERAL INDEX

HILL DIRECTORY COMPANY, publishers of Southeastern Directories (publishers of the Burlington and Graham City Directory since 1935), presents to subscribers and the general public, this, the 1966 edition of the Burlington and Graham City Directory, which also includes Alamance, Elon College, Glen Raven, Glenco, Haw River and Hopedale. (In all, the Hill Directory Company and its affiliated companies publish more than 1,400 city, county, state and national Directories.)

Confidence in the growth of Burlington and Graham's industry, population and wealth, and in the advancement of their civic and social activities, will be maintained as sections of this Directory are consulted, for the Directory is a mirror truly reflecting Burlington and Graham to the world.

The enviable position occupied by HILL'S Directories in the estimation of the public, has been established by rendering the best in Directory service. With an unrivaled organization, and having had the courteous and hearty cooperation of the business and professional men and residents, the publishers feel that the result of their labors will meet with the approval of every user, and that the Burlington and Graham Directory will fulfill its mission as a source of authentic information pertaining to the communities.

Four Major Departments

The four major departments are arranged in the following order:—

I. THE BUYERS' GUIDE constitutes the first major department of the Directory, printed on yellow paper. In the first section of this department, grouped under appropriate headings, are included the advertisements and business cards of firms and individuals desiring to make a complete presentation of their products or services. Following this is the Classified Business section, which embraces a list of the names and addresses of all business and professional concerns of the communities, arranged in alphabetical order under appropriate headings—a catalog of all the activities of the communities. The Buyers' Guide represents reference advertising at its best, and merits the attention of all buyers and sellers seeking sources of supply or markets for goods. In busy and diversified communities like Burlington and Graham, the necessity of having this kind of information up-to-date and always immediately available, is obvious. The Directory is the common intermediary between buyer and seller, and plays an important role in the daily activities of the commercial, industrial and professional world.

II. THE ALPHABETICAL LIST OF NAMES of residents and business and professional concerns, is the second major department, printed on white paper. This is the only record in existence that aims to show the name, marital status, occupation and address of each adult resident of Burlington and Graham, and the name, official personnel, nature and address of each firm and corporation in the communities.

III. THE DIRECTORY OF HOUSEHOLDERS, INCLUDING STREET AND AVENUE GUIDE is the third major department, printed on green paper. In this section the numbered streets are arranged in numerical order, followed by the named streets in alphabetical order; the numbers of the residences and business concerns are arranged in numerical order under the name of each street, and the names of the householders and concerns are placed opposite the numbers. The names of the intersecting streets appear at their respective crossing points on each street. Special features of this section are the designation of owner-occupied homes, the listing of telephone numbers and Zip Code numbers. Zip Code numbers are shown immediately following each street

description. If a street runs through more than one zone, the new zip code number is shown immediately preceding the lowest street number in the new zone.

IV. THE NUMERICAL TELEPHONE DIRECTORY is the fourth major department, printed on blue paper.

Community Publicity

The Directory reflects the achievements and ambitions of the communities, depicting in unbiased terms what they have to offer as a place of residence, as a business location, as a manufacturing site and as an educational center. To broadcast this information, the publishers have placed copies of this issue of the Directory in Directory Libraries, where they are readily available for free public reference, and serve as perpetual and reliable advertisements of Burlington, Graham and vicinity.

The Burlington and Graham Out-of-Town City Directory Library

Through the courtesy of the publishers of the Burlington and Graham City Directory, a Directory Library is maintained in the offices of the Burlington-Alamance County Chamber of Commerce, for free reference by the general public. This is one of more than 1,000 Directory Libraries installed in cities and towns throughout the United States, Canada and Puerto Rico by members of the Association of North American Directory Publishers, under whose supervision the system is operated.

The publishers appreciatively acknowledge the recognition by those progressive business and professional men who have demonstrated their confidence in the City Directory as an advertising medium, with assurance that it will bring a commensurate return.

FAIR PRACTICE CODE

for ADVERTISING and SELLING

recommended by the ASSOCIATION OF BETTER BUSINESS BUREAUS, INC.

I. Serve the public with honest values.

II. Tell the truth about what is offered.

III. Tell the truth in a forthright manner so its significance may be understood by the trusting as well as the analytical.

IV. Tell customers what they want to know – what they have a right to know and ought to know about what is offered so that they may buy wisely and obtain the maximum satisfaction from their purchases.

V. Be prepared and willing to make good as promised and without quibble on any guarantee offered.

VI. Be sure that the normal use of merchandise or services offered will not be hazardous to public health or life.

VII. Reveal material facts, the deceptive concealment of which might cause consumers to be misled.

VIII. Advertise and sell merchandise or service on its merit and refrain from attacking your competitors or reflecting unfairly upon their products, services, or methods of doing business.

IX. If testimonials are used, use only those of competent witnesses who are sincere and honest in what they say about what you sell.

X. Avoid all tricky devices and schemes such as deceitful trade-in allowances, fictitious list prices, false and exaggerated comparative prices, bait advertising, misleading free offers, fake sales and similar practices which prey upon human ignorance and gullibility.

Aerial View of City

IN THE PIEDMONT REGION

Availability

Within 600 miles from the boundaries of Piedmont Carolinas lie New York, Chicago, Philadelphia, Detroit, Cleveland, Pittsburgh, St. Louis, Little Rock, New Orleans and Miami.

In other words, any part of this section is only about one day's railroad travel from the nation's chief centers of population and industry—a consideration that counts heavily in the distribution and marketing of manufactured goods.

From any part of the Piedmont it is only a few hours by automobile over modern paved roads to the wonderful recreational facilities of the mountains in the western Carolinas, to the world-known resorts in the Sandhills—internationally famous for their golf courses - and to the great seaside resorts along the Atlantic Coast.

Labor

Greater than any other resource of Piedmont Carolinas is the character of its men and women. This has made the industrial development possible and attracted a host of manufacturers.

Long before the Revolution these pioneers ranged down the valleys of the Appalachians from Pennsylvania, Maryland and other states. Largely of English stock, with admixtures of German and Scotch-Irish, they settled in the hilly Piedmont section. Their descendants are true to those early traditions. They are energetic and ambitious. It is these qualities that years ago overcame the handicap of debt and stagnation left by the Civil War. They are keen to take their place in the forefront of the nation's development.

Manufacturers coming from older, over-industrialized sections, have been struck by the ready intelligence of these people, their eagerness to be taught, and their loyalty.

National Market

Piedmont Carolinas is 300 miles closer to the country's center of population than, for example, New York City. Based on the Life Insurance Sales Research Bureau studies, careful percentages have been worked out for every county in the U. S. in terms of ability to buy.

A 600-mile circle (the economical marketing radius) center of New York reaches 44.5 per cent of the national purchasing power. Centered on areas farther north and east, a smaller proportion of the national market will be included.

A similar circle drawn from Piedmont Carolinas embraces 66.8 per cent of the country's purchasing power—a 50 per cent greater availability to the national market.

Cost of Living

It has been estimated by one authority that the cost of living averages each Piedmont workman several dollars per week less than an equal standard of living costs in more highly industrialized parts of the country. Houses cost less; food costs less; services cost less. The mild climate requires lower fuel and clothing costs. Naturally labor costs less.

CIVIC FEATURES

Location and Area

Alamance County is located in the famous rapidly-developing industrial area known as the Piedmont Crescent Section. It lies between north latitude 35 degrees 52 minutes and 36 degrees 17 minutes and west longitude 79 degrees 16 minutes and 79 degrees 34 minutes, in the north central section of the state. (Burlington's altitude is 656 feet). The county has 492 square miles land area, or 314,880 acres.

History and Peoples

The following is quoted from a study by John W. Harden, entitled "Alamance County: Economic and Social," and published by the University of North Carolina: "It is not known exactly when the early settlers came to the region which is now Alamance County, but in 1700, when Lawson, an English explorer and adventurer, journeyed through this locality, he found it heavily forested and in the hands of the Saxapahaw Indians, with only a few scattered whites present."

"It seems that this section of the state was first settled by immigrants from the Rhine River section of Germany, known as the Palatin."

"These early settlers were augmented in 1720 by immigration of settlers from the North, and it was this movement that gave the region its first white inhabitants in any number. These came from Virginia, Maryland, Pennsylvania New Jersey, and even the more distant New England. The newcomers were

mostly Scotch-Irish, German and English families, the last being mainly Quaker in religion."

Alamance Battleground

Population

In 1930 the population within Burlington's city limits was 9,737, with several thousand in the immediate suburbs. According to the 1960 U. S. Census the city's population was 33,199 and the population of Alamance County was 85,674. Estimated population in 1966 is 39,000 for Burlington, and 94,000 for Alamance County.

Within a two-mile radius of the City Hall there are now 44,000 while a four-mile radius will take in over 60,000 or over 50 per cent of the population of the entire county.

The following are 1960 population percentages for Burlington:

Native White	84.4 per cent
Foreign-born white	0.6 per cent
Negro	15 per cent
Total native-born	99.4 per cent

The population of Alamance County during the 1950-1960 decade increased 20 per cent while the population of Burlington increased 40.5 per cent.

Churches

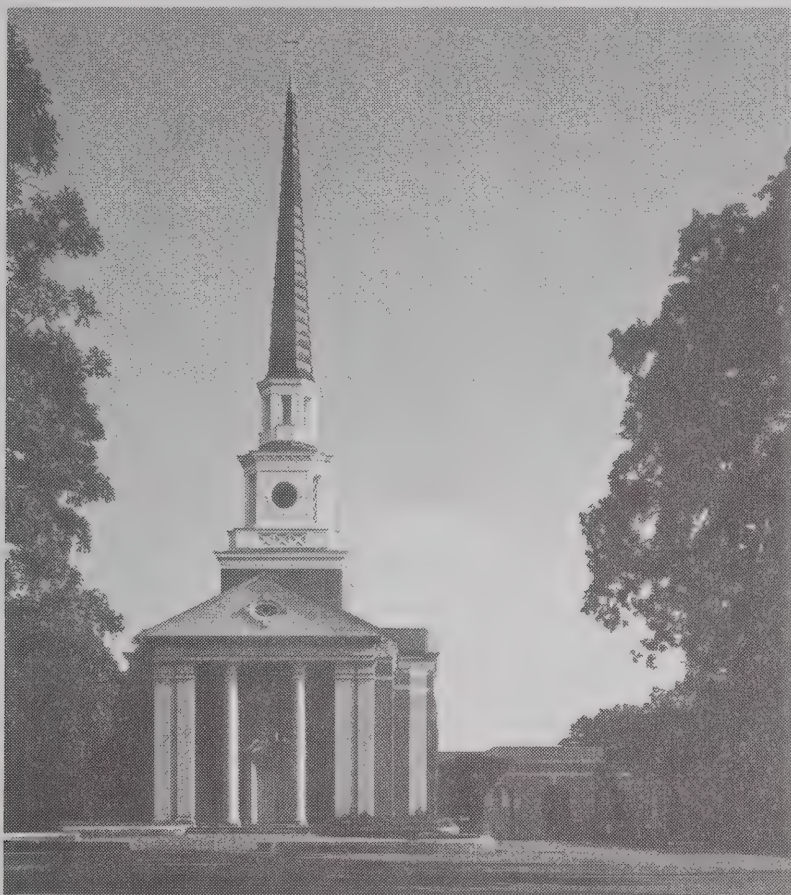

The essential religious atmosphere of the community and its influence on Burlington's citizenship are indicated by the presence of 65 churches, including all leading denominations, this being a ratio of one church to every 640 of the population. Total membership in local churches is around 25,000.

Education

COLLEGES AND UNIVERSITIES—Within a two-hour automobile ride of Burlington, within North Carolina, are at least seventeen colleges and uni-

versities of the first rank, and several within this radius in the neighboring state of Virginia, making a total of more than twenty.

Elon college, supported by the Congregational-Christian Church, is located four miles from Burlington, and is one of the best equipped educational institutions in the state, as to buildings, strength of faculty, and equipment.

First Presbyterian Church, West Davis Street

City Schools—The Burlington city public schools rank among the best in the state. The local school district has 15 buildings. The district embracing Burlington and its suburbs. In 1965 the faculty consisted of 399 teachers, the enrollment of students being a total of 9,730 Classroom and laboratory equipment, library, auditorium, fine arts, gymnasium and playground facilities are adequate.

The public school system is governed by a local Board of Education and a superintendent under the supervision of the State School Commission, and is financed principally from state funds, the State having assumed the support of all public schools through a state-wide system set up in 1933 by legislative act.

Burlington has a business college offering commercial classes, bookkeeping and stenographic instruction.

There are several private kindergartens, a parochial school and one private day school with grades 1-6.

The Technical Institute of Alamance serving Burlington and Alamance County is a great community asset. The various courses of study offered are planned by the State Department of Trade and Industrial Education with the assistance of consultant committees representing industry.

The Technical Institute of Alamance County offers trade and technical courses designed to provide the practical and theoretical training needed to secure employment and advancement in selected fields of work. The student's

time is spent in the laboratory developing the necessary manipulative skills and in classroom study the applied (related) subjects such as mathematics, science, drafting, technical report writing, and other selected areas of study. The Technical Institute awards an associate degree in applied sciences to students completing the applied science, or technological, curricula over a two-year period. In 1965 the Technical Institute of Alamance County had 2,322 students and 28 full time and 51 part time teachers.

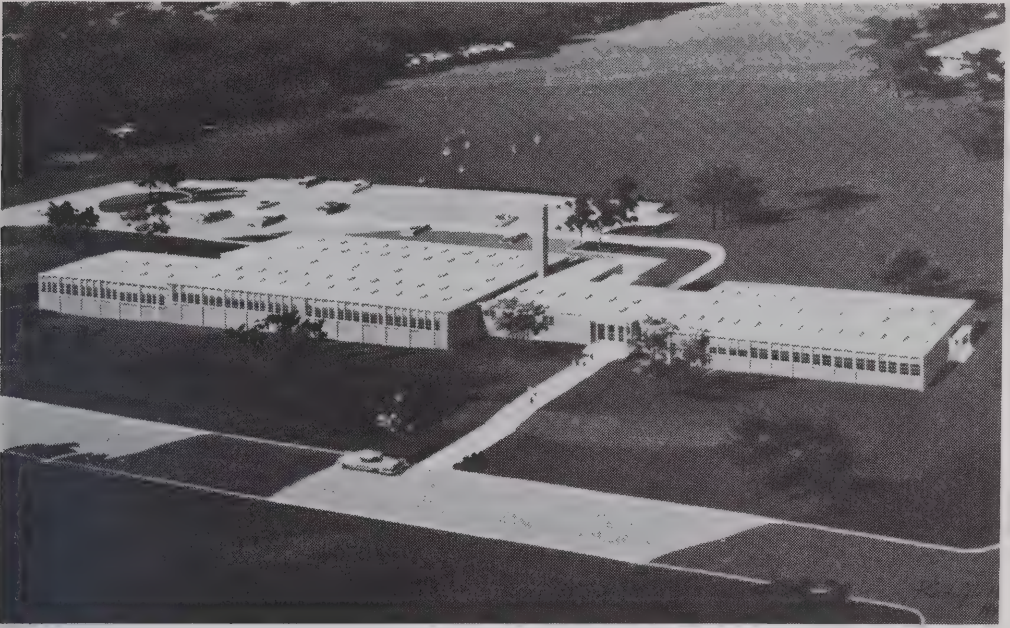

Walter Williams High School

Turrentine Junior High School

LIBRARY—A public library, supported by the city and county, has 45,000 volumes, while the circulation for home use in one year totaled 150,000. This does not include use within branch school libraries. Film and recordings library available.

Pictured above is the Technical Institute of
Alamance County, Burlington, N. C.

Recreation

Burlington is within a few hours' ride of the noted beach resorts along the coast, the nationally-known sandhill resorts around Southern Pines and Pinehurst, and the far-famed summer mountain resorts surrounding Asheville, in the western part of the state.

There are many game preserves in the area. Bear and deer are found in coastal and mountain counties. Raccoons, foxes, opossums, quail, and rabbits are available throughout the state. Brant, ducks, geese and other migratory birds winter in large numbers on the coast and there is also excellent fishing along the coastal sounds and in the lakes and streams of the interior.

Within an easily-accessible distance of Burlington are excellent hunting and many streams and lakes for fishing.

Within the city are playgrounds at each of the schools, baseball and football fields, several parks, a number of tennis courts, the Alamance Country Club with an excellent 18-hole golf course, an 18-hole public golf course, "Shamrock," three theatres, and a year-round recreation commission program. A large park with stadium swimming pool and complete recreational facilities are available for the public.

Burlington has a modern community center operating as a YMCA offering a year-round organized recreational program for men, women, and children. Aquatic sports of all kinds and fishing are enjoyed at Burlington Lake and Marina located about ten miles from Burlington.

COMMERCIAL FEATURES

Trade Area

Local Stores

A recent survey of the nearby trade area indicated the decided preference of customers within Burlington's area for patronizing local stores, because of the excellent quality and service, the variety and the prices of commodities, which compared favorably with those of cities much larger. There is a very small percentage of mail-order and out-of-town shipping. Approximately 88.4 per cent of those in the Burlington area buy in Burlington.

Hotels and Motels

There are 362 rooms available in motels in or near Burlington. The Alamanance Motel, downtown, has 85 rooms all with bath; The Arrowhead Motel, Mebane Oaks Road and Interstate 85, near Mebane, has 25 units; The Embers Motor Lodge on I-85 adjacent to Burlington has 33 units; The Fleetwood Motel, also on I-85 near Burlington, has 38 units; Kirk's Motor Court, near the downtown area, has 81 units; and the Holiday Inn at I-85 and N. C. 49 has 100 units.

There are also a large number of private rooming houses and boarding houses, as well as ten apartment houses.

Six package cars operate daily to junction points. Daily through freight service is furnished on three or four trains each way. Local freight service both ways every other day, switching service to and from Greensboro each day except Saturday. Local side-trackage sufficient for some 600 cars.

EXPRESS—Adequate express facilities are furnished by the Railway Express Agency. Express delivery time: Between Burlington and New York City, 16 to 17 hours; Washington, eleven hours; and other major points on schedules equally prompt proportionate to distance.

BUS—Hourly passenger bus schedules are maintained in every direction, making connections for all points, while several short-line bus services are in operation to nearby towns and a local bus service operates on regular routes within the city and to nearby industrial sections. There is, of course, adequate local taxicab service.

INDUSTRY

Alamance County's industrial history dates from the year 1837, when Edwin M. Holt, who was born and reared in the county, established a cotton mill on the Alamance Creek, four miles southwest of Burlington.

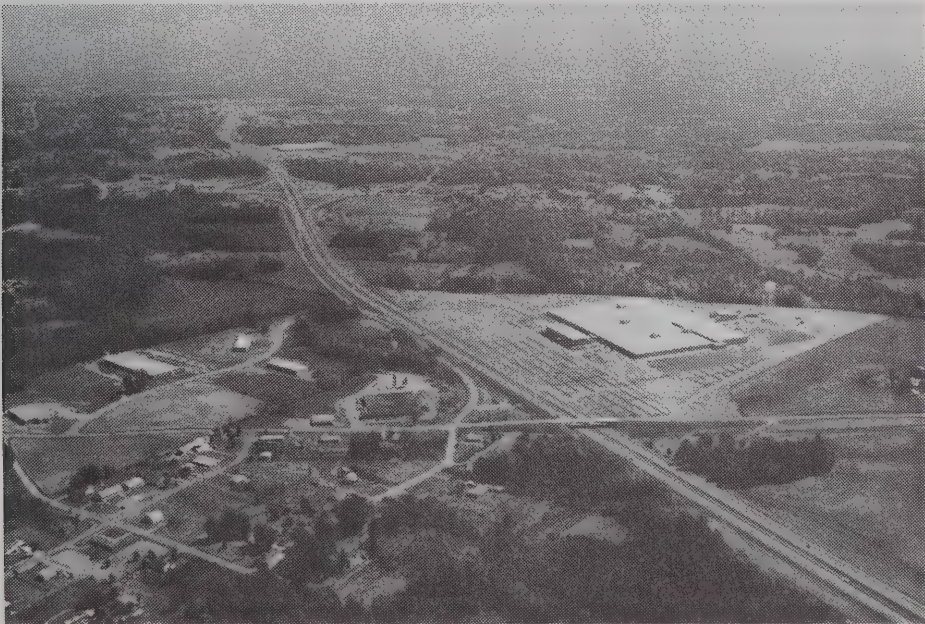

About 1854, this mill began the production of colored woven cotton fabrics the first in the South to produce this material.

In 1887, when Burlington acquired its name, there were 3 cotton mills, 1 coffin factory, and a few smaller plants. Today in Burlington and Alamance County there are approximately 250 manufacturing establishments, including hosiery, textiles, weaving, electronics, furniture, packaging, etc., which employ about 21,000 workers.

Industrial expansion has been steady. The Lafayette Mills were established in 1881; the E. M. Holt Plaid Mills in 1883; the Lakeside Mills in 1893. In other parts of the county the older plants included the White Furniture Company, established in 1881; Durham Hosiery Mills, in 1898, and Virginia Cotton Mills, in 1894.

Burlington has become known as the hosiery center of the country. The first hosiery mill here, the Daisy, was established in 1896, followed a few years later by Burlington Knitting Co., Whitehead Hosiery Mill, Sellers Hosiery Mill, May Hosiery Mills, and McEwen Knitting Mills—the last being the first in the section to manufacture full-fashioned hosiery. These were followed by many others, most of which are still operating.

Beginning in 1923; with the establishment here of Burlington Mills, the rapid expansion of this group of plants, now numbering 11 in and near the city with some 100 in other cities in the area, has brought the weaving industry to the forefront, making the city known for dress goods, art silk, tapestries, and other cotton, rayon and silk fabrics, as well as for hosiery.

Western Electric Company came to Burlington in 1946 and since that time has grown until they now employ approximately 4,000 people in the Burlington plant.

MOTOR TRUCK—Twenty-seven long-distance motor truck freight lines with local terminals operate from or through Burlington on daily schedules north and south to the larger cities, making connections for Western and Eastern cities.

AIRPLANE—A Commercial airport, operated by the Burlington Flying Service, located two miles west of the city's business section, is equipped with two hangars, and has repair service and other supply facilities, telephone, taxi and bus connections with the city, with several passenger planes available on the field, making possible connections with the major established air mail and passenger routes, 27 miles to airport served by Eastern, Piedmont and United Airlines.

Other industrial lines represented by local manufacturing plants are lumber, building materials, brick and stone, insecticides, disinfectants, caskets, soft drinks, ice, mixed feeds, dairy products, baking, printing, proprietary medicines, cosmetics, hats, paper boxes, foundry and machine shops, foods, textile supplies, & plastics.

Industrial payrolls in the Burlington area average well over \$110,000,000 annually, with 21,000 persons employed.

This Publication Is The Product of a Member of

—thus assuring you the ultimate service that skill and care can produce in the way of City Directories or other reference media, and providing protection against fraudulent advertising schemes which operate under the name of Directories.

The following "Standards of Practice," adopted at the inception of the Association of North American Directory Publishers in 1898, and strictly adhered to over the years, is your guarantee of satisfactory Directory service.

The publisher of a Directory should dedicate his best efforts to the cause of business uplift and social service, and to this end pledges himself:

1. To consider, first, the interest of the user of the book.

2. To subscribe to and work for truth, honesty and accuracy in all departments.

3. To avoid confusing duplication of listings, endeavoring to classify every concern under the one heading that best describes it, and to treat additional listings as advertising, to be charged for at regular rates.

4. To increase public knowledge of what Directories contain; to study public needs and make Directories to supply them; to revise and standardize methods and classifications, so that what is wanted may be most easily found, and the Directory be made to serve its fullest use as a

business and social reference book and director of buyer and seller.

5. To decline any advertisement which has a tendency to mislead or which does not conform to business integrity.

6. To solicit subscriptions and advertising solely upon the merits of the publications.

7. To avoid misrepresentation by statement or inference regarding circulation, placing the test of reference publicity upon its accessibility to seekers, rather than on the number of copies sold.

8. To co-operate with approved organizations and individuals engaged in creative advertising work.

9. To avoid unfair competition.

10. To determine what is the highest and largest function of Directories in public service, and then to strive in every legitimate way to promote that function.

\$100 Reward will be paid by the Association of North American Directory Publishers for the arrest and conviction of any person or persons engaged in the publishing, collecting or canvassing for any fraudulent or fake directories.

PLEASE! Do Not Lend Your CITY DIRECTORY

IT COSTS YOU MONEY—Every Time it Is Loaned

The practice of lending your City Directory, in a great measure, is responsible for the increasing cost of Directory Service.

The reason is:—

There is a definite cost involved in the making of the DIRECTORY of Your City.

THIS COST MUST BE ABSORBED BY THE SUBSCRIBERS—BE THEY ONE—OR BE THEY 1000.

If there were but ONE SUBSCRIBER to the CITY DIRECTORY—THE ONE SUBSCRIBER would of necessity have to absorb THE WHOLE COST.

If there were 100 SUBSCRIBERS—each one would have to absorb 1/100th PART OF THE WHOLE COST.

If there were 1000 SUBSCRIBERS—each one would have to absorb 1/1000th PART OF THE WHOLE COST.

From which it is obvious that the GREATER the number of subscribers—the LESSER the cost to each.

And

It is also obvious that the LESSER the number of subscribers—the GREATER the cost to each.

Every time you loan your City Directory the LESS NECESSITY THERE IS FOR THE BORROWER TO SUBSCRIBE FOR THE SERVICE.

MORE BORROWERS result in FEWER SUBSCRIBERS which means INCREASED COST.

WHY A BUYERS' GUIDE?

IT IS CUSTOMARY TO INCLUDE A BUYERS' GUIDE IN THE CITY DIRECTORY BECAUSE:

It gives business firms the opportunity to elaborate upon a description of their products and services impossible in the limited space of regular Alphabetical and Classified listings.

★ The Buyers' Guide is a necessary supplement to the regular listings; it is good City Directory information . . . EXTENDED ★

GRAHAM PRODUCTION CREDIT ASSOCIATION

IT'S
TO
YOUR
ADVANTAGE
TO HAVE

A DEPENDABLE SOURCE OF CREDIT

From the standpoint of good business management, you can't beat your Production Credit Association for short and intermediate term credit.

The PCA way you buy for less by paying cash, saving hidden financing charges, and have a known cost for the amount of credit you need to operate your farm.

Every dollar you save will be a dollar towards net profit. So remember to see your local PCA for your credit needs. You'll be glad you did.

CASHIERS! TELLERS! CLERKS!

Do your employers furnish you with the latest edition of the City Directory?

You need it at your elbow at all times, to protect your company from forgers and bad-check artists. A few questions, checked against City Directory information, will trip them at once. Intelligent use of the City Directory for this purpose has saved thousands of dollars and helped make some cities "too sharp" for bad-check "operators."

CAUTION

Pay no money in advance to itinerant Directory Canvassers. We are led to mention this from the fact that certain parties have been fraudulently using our publications as specimens, and by that means collecting money in advance. Before signing an order, see that it has the name of the publisher of this City Directory printed thereon. We ask no payment until the work is delivered, and our solicitors have strict orders not to take advance payment for either advertising or subscriptions.

STREET and AVENUE GUIDE INCLUDING TELEPHONE NUMBERS and HOME OWNER SYMBOLS 1966

Including Alamance, Elon College, Glen Raven, Glenco,
Haw River and Hopedale

Copyright, 1966, by Hill Directory Company

IN THE FOLLOWING LIST THE NUMBERED STREETS ARE ARRANGED IN NUMERICAL ORDER FOLLOWED BY THE NAMED STREETS IN ALPHABETICAL ORDER, THE INTERSECTING STREETS BEING SHOWN. THE NUMBER OF EACH BUILDING ON THE STREET IS GIVEN IN NUMERICAL ORDER, AND OPPOSITE THE NUMBER IS PLACED THE NAME OF THE OCCUPANTS OR HOUSEOWNER OR TENANT. IN THE BUSINESS BLOCKS CONTAINING OFFICES THE OCCUPANTS ARE SHOWN BY ROOM NUMBERS WHERE PRACTICABLE, IN APARTMENT HOMES THE NUMBER DENOTES THE NUMBER OF THE APARTMENT. IN ALL STREETS BOTH SIDES OF THE STREET ARE INCLUDED IN ONE LIST. THE PROFESSION OR BUSINESS OF INDIVIDUALS OR FIRMS IS GIVEN ONLY AT THEIR RESPECTIVE PLACE OF BUSINESS; TO FIND OCCUPATION OF OTHERS REFER TO ALPHABETICAL LIST OF NAMES.

THE SYMBOL ● FOLLOWING A HOUSEHOLDER'S NAME INDICATES THAT WE HAVE RECEIVED INFORMATION DURING THE CANVASS THAT THE HOUSE IS OWNED BY SOME MEMBER OF THE FAMILY, BUT AS THE PUBLISHER CANNOT AND DOES NOT GUARANTEE THE CORRECTNESS OF THE INFORMATION FURNISHED, NOR THE COMPLETE ABSENCE OF MISTAKES NO RESPONSIBILITY FOR ERRORS CAN BE OR IS ASSUMED, NOR CAN THE PUBLISHER FURNISH FURTHER INFORMATION THAN THAT SHOWN.

TELEPHONE NUMBERS, AS SUPPLIED TO US ON OUR CANVASS ARE SHOWN OPPOSITE NAMES.

ZIP CODE NUMBERS ARE SHOWN IMMEDIATELY FOLLOWING EACH STREET DESCRIPTION. IF A STREET RUNS THROUGH MORE THAN ONE ZONE, THE NEW ZIP CODE NUMBER IS SHOWN IMMEDIATELY PRECEDING THE LOWEST STREET NUMBER IN THE NEW ZONE.

THE NUMERALS THAT APPEAR AT RIGHT EDGE OF COLUMNS, AHEAD OF STREET DESCRIPTIONS AND SOME STREET INTERSECTIONS, ARE MERELY FOR THE GUIDANCE OF THE PUBLISHERS, AND HAVE NO OTHER SIGNIFICANCE.

THIS SECTION INCLUDES SOME LISTINGS READING "NO RETURN." IN EACH CASE THE PUBLISHERS TRIED DILIGENTLY, BY VARIOUS MEANS, TO OBTAIN THE INFORMATION FOR THE OCCUPANTS BUT WERE UNSUCCESSFUL. FIRST, TWO PERSONAL CALLS WERE MADE BY AN ENUMERATOR; NEXT, A DOUBLE POSTAL CARD WAS MAILED AND THE TELEPHONE USED WHEN POSSIBLE.
